## Customer Reviews

Let me start by saying that I read this book, not once but twice! How did I get this lucky??? Chasing butterflies is a beautiful NA love story that starts in High School and finishes in college. The story is told in two different time frames (4 years apart) and in a Dual POV. Being a mix of second chance with sports romance, this story has captivated my heart from the start. Kelley is a 17 year old boy, gorgeous, with a bi-colored eyes and a football player. However, Kelley's life is far from perfect. His father is a drunk and the only support he has comes from his mother and his older brother, Sandy. Living a life of abuse from his father, Kelley had to learn at a young age that things don't come easily (except for the young ladies, of course). When unfortunate circumstances happen and Kelley had to move with his family, he didn't know his life was about to change in so many ways. Lenora is a 16 year old girl, beautiful as they come and a cheerleader. Living a good life, Lenora aka Lenny is a good girl, with a good heart. Though she has everything to live a perfect life, the truth is something is missing. Like every girl at that age, Lenny wants to give her heart to the right boy, the one who gave her butterflies. What if the right boy is the new bad boy in town, named Kelley Moore? When I started reading it, I knew very little about the story. So I had no clue what was in the cards. Kelley & Lenny's story is heart-wrenching. My heart fell for both in so many ways. Kelley and Lenny were victims of their own lives. I must confess I was angry at Kelley for a few times. I disagreed with some of his choices but in the end I understood everything. I loved the young teen and the man he becomes. And I love his cockiness!!

Chasing Butterflies is the first book that I have read from this author. I really loved this book even though at times I had a few issues with it. But the storyline was great and I loved the characters. It has just the right amount of drama and angst to keep you on the edge of your seat. We first meet Kelley as a young boy and see that his childhood is anything but pleasant. He has a brother that he looked up to and a mother that he loved and adored, and at the same time felt like he let her down at times. They were the two people that meant anything to him. His father on the other hand was an abusive man who made his life hell. We see how quickly Kelley grows up from a little 8 year old boy to a teenager in high school where he meets Lenora, the girl who would capture his heart and never let it go. Lenora had a good life at home. All though I have to say her parents pissed me off for several reasons, which I will not go into because it will spoil it for you. But when Lenny first meets

Kelley she sees him as nothing more than a complete douche. Until she really gets to know him and really sees how broken this boy really is. They become friends and Lenny has been helping him with school work. Lenny is the girl that Kelly can open up to about his life. What he feels with her and for her is unlike anything he has ever felt before. But he isn't the only one who feels that way. When Lenny is with him she gets those butterflies in her stomach, we all know the ones. But she has a boyfriend of her own and while she may not be happy with him there are reasons for her staying with him. When she experiences betrayal in the worst form she goes to Kelley for comfort.

It's all Terri Laine's fault that I was unable to go to bed after a night shift because I had to see the end of this book. So now I'm sleep deprived, speechless and then to suffer through a case of book hangover. But guess what? Author's just like her remind me why I love reading so much. To be able to fall in love with these characters, to want to cuddle them and say it will be all right. Stories like this one is a solid 5 star. ARC of Chasing Butterflies by Terri E. Laine provided in exchange of an honest and spoiler free review. I will be vague with a brief detail of the kind of story this is, because there are so many surprising twists that I don't want to rob the readers of fully enjoying this journey. We have Lenny, the good girl who meets Kelley the bad boy from the wrong side of the tracks. They will be brought together by a series of events but will also be separated by circumstances beyond their controls. This is their journey through life. When I initially started reading this story, I wasn't sure what to expect. I read the first couple of chapters and thought, that I wasn't certain I would enjoy this story because I was too slowly eased in for my likes. As soon as I thought that, my way of thinking turned around and I got so engrossed in the story that I just couldn't seem to want to put it down. It sucked me right in at hurricane speed in order to spin my emotions at full force and spit me back out, smiling. It's one of the best feelings I get to experience while reading a story of this caliber. What's amazing too, is that the author was able to keep me intrigued until the end. To top it all off I get to write a review to prolong the feelings. This is so much more than a love story.
