# Fallen Angels . . . And Spirits Of The Dark

## Synopsis

“My name is Legion: for we are many.” —Mark 5:9

They have been with us since the beginning of time. Walking the centuries in our myths, our art, our literature . . . and in our dreams. Victims of temptation and sin, they are spirits who fell from heaven’s grace, emerging anew as servants of darkness. Here, in one spellbinding volume, are the most infamous denizens of the Underworld—from Lucifer, the first angel who challenged God’s will, to the fathomless legions of demons and fiends who haunt us to this day. Explore their world, hear their stories, unravel their secrets, and discover for yourself that even angels can have a dark side . . .

## Customer Reviews

I am often drawn to forgotten/esoteric with this book some passages became less confusing. Few ancient texts cared to include an adequate glossary for terms such as loa, lerajie, forcas, etc. yet this book does contain them and many less familiar creatures in addition the common vampire, lucifer, and zombie listings with a more extensive description than offered popularly. Jason

This is an incredible book that features most of fallen angels, demons and other legends from the

beginning of time, to the present. Lots of documented accounts and plenty of excellent illustrations.

As always, Robert Masello gives us tons of details and a touch of humor. Using sources, some new and some very old, he gives us information on Satan, his many allies, spirits, ghosts, werewolves, witches, the undead, goblins, elementals, Voodoo and other forces of the dark. Nice Glossary and even a Bibliography if you want to explore the subjects in more detail.

This is one of those books that covers a lot of ground in a small package. I think it is a great place to start if you are interested in demonology, vampires, witches(satanic) etc, and its biggest benefit is probably that this book gives you a basic foundation to know where you would like to go with your studies. The writer is very clear and concise, with a welcome bit of humor every once in a while. Don't expect an encyclopedia here, it just is not that kind of book. But for what it is, I would highly recommend it. If you like this book, I think a great next step into learning about monsters/otherness would be "Religion and It's Monsters" by Beal.

I expected more from a book this titled. But the author dealt more with the minor spectrum. It is more an ethnological description based on some historical research than a try to explain the nature of primordial split in Heaven and its consequences.

I am not even lying to you, this book is absolutely incredible. I love it. From the moment it arrived, I was glued to it, and when I finished reading it, it does not sit unused on my shelf. I have looked up things in there and read it again and again, just because it is such an interesting read. Highly recommend!!!!

Who would have ever thought that such a small book could provide such a treasury of information on the damned. Though not as comprehensive (and boring) as other books on the subject- this book presents an interesting read.I COULD NOT PUT IT DOWN THE MOMENT I TOOK IT OUT OF THE BOX!!This book provide an interesting picture of your favourite denizens of the underworld, their habitat, and much more.

I bought this book for a Short Story I am working on. And even though it has many passages of scripture taken from the Bible, I still found it to be very informative. Much better than having to read works by DANTE. I still cant put the book down. A must have in anyone's home library.
