Customer Reviews

Jack Hunt has done a superb job of weaving a believable and compelling tale of contemporary post apocalyptic fiction. An easy 5 star rating in my opinion... Looking forward to a continuation of this series.

Exciting apocalyptic story set in Idaho. Believable plot with well developed characters. A glimpse

into the blackness which can erupt when law and order evaporate and food guns and ammo are controlled by anarchists.

I'm excitedly awaiting the next book in this series. Not just for preppers, these are quality fiction. Characterized by believable plots and characters that ring true, Jack Hunt delivers great stories of post-apocalyptic life. Twists and turns, thrills and chills, even a pinch of romance. No graphic sex or heavy religious content, but be aware they do contain graphic violence.

Both books in this series show a glimpse of what could happen in the event our country falls. Scenes of horror and of triumph. Of friendship and of hatred. Our society is as fragile as glass and it won't take much to shatter it. Makes one hope for the best but to consider the worst. Well worth the effort. Well done!

I read both state of panic and state of shock. They were both a good read. Decent story line and nice narrative. They both made a good airplane and hotel read while traveling. Main complaint was lack of sleep for not putting them down when I should.

Well written and easily read, State of Shock moves along at a steady and intriguing pace. I found the characters believable and the author certainly added a new twist to the list of events possible to create a SHTF event.

With excellent writing, the author takes you to a believable story of life in the event of a catastrophic event in America. The actions of the heroes and the heinous crimes against fellow Americans are totally believable...great writing...

Great series really looking forward to the next book. This is well written and has good plotting and the characters are believable>
