Customer Reviews

Authoress Patti Doss has done it again with *Somebody Else's Husband Too*. I wish I had read this series sooner, but better late than never. As with the first book, the pace of the storyline was not too fast and not too slow. However, there were still a few grammatical/ spelling/ mixing up of characters names in places. The issues were less frequent than in the first book. The word choice

for me made me want to keep reading to see what happens next. As expected some people showed up and showed out. Rachel (Ms. Broken): At first and I slightly still am mad at her and her actions. Deep down she is a broken individual who has yet to face her inner problems. The only thing felt would make her problems hurt less was to sabotage others, so they feel pain. The questions remain: will she be able to mend broken fences after dealing with those issues or is the damage irreparable? Is Ms. Psycho really gone or is she going to sneak up like a hurricane on a path of destruction? Derek (Mr. Sly): His actions was a shocker for me. I so wanted the suspicions to be wrong or at least minimal. At some point, someone always gets careless, and that's when things fall apart. In many ways, I didn't even feel any sympathy for him because his actions now have him reaping what he sowed. I just hope he has to work to get back the things he wants and proves he deserves them back... Persia (Ms. Sassy): I was always on the Team Persia. She just had that vibe/energy that was something that you feared seeing if you crossed her. She already suspected things, so she did what many do or wish to do, and that was get even. Didn't know what angle she was coming from at first but she showed up and showed out.

Wow! This book was definitely not what I expected. But not in a good way. After reading the first book, I felt good about these people and what the future held for them. Now, I feel dirty. LOL. These people took a whole different path. I guess that's a good thing for an author to give you a shock but for some reason, for me at least, the shock was not a good one. First, at the end of the first book, we were reading about shooting stars and signs from God about starting anew. Then we start this book with Tammie no longer wanting to have a relationship with Jamal. What the hell happened between the time of her wanting to be with Jamal and to the present? And what the HELL happened with Jamal for him to turn out like he did? Anyway, I still have a hard time believing that Tammie, being the educated and independent woman that she is would be so stupid to want anything else to do with Mike. Really? Tammie should have "DUMMY" tattooed on her forehead. I don't trust Mike at all. He still has Rachel on his mind even if he's trying so hard to convince himself he doesn't. Then we have Persia. This chick went buck wild. From what I read of her from the first book, I never would have expected her to turn out like she did. She was so convinced that Derek was cheating on her, and when she does find out, we learn that she had been doing her dirt as well. I'm not excusing Derek for what he did. He messed up big time and I still think that there is going to be trouble in the future for him from the "other" woman, but the things Persia was doing were crazy. Unprotected sex with these different people and the things she was doing with those people was just careless. Did she ever think of her children while she was doing those things? I mean, what if she caught

something and died?
