Customer Reviews

After the mysterious disappearance of her husband, Emma has been struggling to move on. Her priorities have changed and taking care of her daughter has been keeping her busy. Needless to say, she still hopes to find Caleb one day, whether dead or alive. But the search for him has been long and she is starting to wonder how long she can wait for Caleb. No one knows what happened to him, but the search is still on. Meanwhile, Emma has to face with the fact that her husband may never come back, and staying at home is not helping her cause or the baby. Then just when she is starting to go out more, her sudden interest for Caleb's brother threatens to destroy the relationship that she had with her husband. Suddenly she starts to question herself, but when she least expects

it she gets the news that Caleb has been found...I thoroughly enjoyed reading this book, Lush had me at the end of my seat wondering when Caleb was going to be back. There is definitely a lot of tension among the characters in this book, Emma doesn't know if it's time to stop looking for her husband or if he is going to be alive. Her daughter is her new life, and purpose. But as her relationship with her brother-in-law starts to shift, she doesn't know if she actually wants him. In some scenes in the book, I was not really impressed with Emma's actions, yet they were understandable due to her current state. Needless to say, I would highly recommend reading this series, it is a total page-turner and suspenseful. :)***ARC provided in exchange for an honest review.***

Caleb is still missing and Emma is learning how to cope without her husband and be a mother to Charlotte, their daughter who is now eight months old. Caleb has been missing for nine months and Emma is losing her mind as she knows he must be out there somewhere but where ? Did he leave her because he didn't want to be a father or husband ? Has he just vanished and built himself a new life or is he injured or worst dead ? As the days and months go by Emma writes in her journal . During this time , Emma is encouraged to go to the Miami Book Fair and heads over with Colin. The pair kiss and have a tangle but Emma's heart still aches for Caleb. Can she betray her love and start a new relationship with his brother ? Meanwhile Sarah has put on hold her library job and holding the bookshop's fort down and her and Laura's plans to have a baby are on hold. Tell me a Secret was probably one of the sadder reads as Emma is coping with Caleb's loss and being a single mother. The book ends on a cliffhanger though as Emma and the family receive news that Caleb has been found. Where has he been all this time ?I have to admit I had been a bit scared to read this Episode #4 and the last one #5 and had them sitting on my Kindle for a couple of weeks , but I faced my fears and read them and of course I am glad I did.

Let me start by saying, the opening pages of this book are hot...like threesome with a twist hot.I am not sure how much I should give away. This is the fourth book in the series and none of these are standalones. The entire story is interconnected. I hate spoiling, so if you really don't want any spoilers, read books 1-3 first.So, with that being said, I will review without giving away any spoilers, or at least any more than the blurb gives away.There is a pregnancy, a mystery, a hot brother and some seriously erotic dreams. Sounds like a good time, right?Emma is not dealing with her husband's disappearance. She gives birth to his child all the while hoping Caleb will be found. Meanwhile, Emma is having erotic dreams about her super hot brother-in-law. Emma has secrets,

big secrets. Heck, everyone has secrets in this series! I went back and read the first three books in the series before starting this and I am glad I did. The book does some recapping, but I think this is a fantastic series and to get the full effect you should read the entire thing. I received an ARC in exchange for an honest review.

Tell Me a Secret is book #4 in the "The Story" series and was a great 4 star read. Emma is 8 months pregnant and dealing with the fact that her husband Caleb is missing and may never come home. She has been having some steamy dreams about her husband and brother-in-law Colin, and I mean steamy. Emma tries to stay positive about Caleb's return by keeping a journal of her pregnancy and all her experiences. Where is he and why hasn't he come home yet? There is also an attraction building between Colin and Emma. Will she be able to resist the man that reminds her so much of her husband? This was a great read and I look forward to the next book in the series. This book ends in quite the cliffhanger. Emma had a really great support system from Caleb's family, they added a great element to the story. Tamara Lush really pulls you in with her writing. 1-Click and get started on this great series now. ARC provided by author in exchange for an honest review. Reviewed by MAustin from Alpha Book Club

I said it at the beginning of this serial and it still holds very true ... Tamara Lush is a master with prose. I am still, four episodes later, in awe on how intriguing and captivating and fresh this story is. This is definitely a very frustrating episode. So be prepared. You really end up with way more questions than answers. But it is very well unfolded. The suspense is intriguing and real. The depth of despair that Emma is going thru is palpable and felt thru every page ... but there are secrets and hidden agendas and a s***ton of wait, what?! moments.. So I very patiently, not really lol, wait for the next episode and hopefully the conclusion of this very intense story line! Copy provided for blog tour
