Camille Ellis's search for a missing friend and diabolical killer continues. She may not have a badge but she's not alone, which causes a new sense of commitment and responsibility on Cam's part. The changes in her life also fill a need she's had since her twin sister drowned as a child. Cord Graeson is now the alpha of a new warg pack with Cam as his alpha mate.

Understanding warg pack structure and social behavior is a learn as you go process for this Fae. As always, Camille faces her fears. Her fear of water has been confronted through several murder cases. This time it's deeper and darker than anyone expects. "Hell or High Water"

effectively concludes the Gemini series in this third book. Camille's journey from self-punishing Conclave agent and exiled family member to rogue agent and warg mate includes poignant trials and tribulations. The overarching storyline that began with *Dead in the Water* wraps up with a strong finish with the exception of the epilogue, which I wish had continued with Camille's point-of-view. This series is the first I've read by Ms. Edwards. Camille Ellis' character and the premise of her story intrigued me. As the Gemini series is set in the same world as the author's Black Dog series I found it easy to navigate through this world despite my ignorance. (This has not always been the case for me in reading other authors' spin-off series.) For the most part, the other series' characters popping in from time to time didn't bother me or throw me out of the story. For fans of the Black Dog series, Thierry's appearance may be satisfying. Her role makes sense given Camille's investigation yet I felt a bit out of the loop even though more of Thierry's backstory is revealed in *Hell or High Water*. This is only for a moment and near the end.
