Customer Reviews

I read this book shortly after this years 9/11 anniversary. It brought back a lot of memories from the actual day. That in and of itself, was worth the purchase price. The book itself took a while to get going, but that was due to the author's attention to detail in building the characters back stories.

Once the plan was laid out and detailing for the reader, the porosity of our country's borders, it was difficult to put down. Mr. Lankford's preciseness for the names and places listed in the book make me believe he must be a geography buff. His geological accuracy reminds me of the many Dan Brown novels i have enjoyed. I look forward to his next endeavor. James B.

Fantastic book. Keeps you on the cutting edge. Recommend read for everyone. Best Seller.
Compare to Ian Fleming or Wilbur Smith.

This story is so scary, because it is real - there are Islamic terrorist sleeper cells within our borders.
We may not be safe!

Ron Langford has produced an inconceivable machination of a convincing and horrifying scenario under the guise of fiction. He takes you on a journey, drawing you into a convincing, detailed undercurrent of terrorist movement going on in our cities; in our neighborhoods and at our borders. Ground Zero Los Angeles will strike an inevitable terror in the heart of every reader. It is an accounting of what we all know and fear is a possible reality.
