Surrendering: A Regent Vampire Lords Novel, Book #1

Synopsis

It's best if we just keep this casual, Devon. To feisty, relationship phobic Kate Martin's utter surprise, she isn't automatically dismissed as a crackpot when she finally plucks up courage to walk into a police station, revealing what she's seen in her dreams. But instead of making a simple statement and returning to her nice, quiet life, she finds herself the center of attention from both a psychotic vampire and the "investigative specialist" who would die in order to protect her. "You're anything but casual, Kate. I want you and I always get what I want." Young women are disappearing across the country and Devon, Regent Vampire Lord of the Midwest, knows his centuries old archenemy has finally resurfaced. A break in his fruitless search is provided by the discovery of a woman who can not only see the missing in her dreams, but who ends up being his Moira, his Destiny. And she couldn't have stepped into his world at a more inopportune time, for she is now the prime target for his nemesis. Protecting her heart would prove to be her biggest challenge. Devon may be the sexiest, most sinfully erotic man she's ever met, and he stirs passion in her like no one else before, but he's an entanglement Kate does not want or need. While it becomes impossible to deny their mutual desire, once the case is solved and the missing women are found, Kate fully intends to return to her boring life, alone. At least that's what she thinks. **Contains graphic sexual content and harsh language. It is only appropriate for adult readers age 18+

Customer Reviews

Surrendering is the first book in the Regent Vampire Lords™ series and the type of book that I love – paranormal romance. We meet Kate Martin, a sassy lady who in the beginning has been betrayed in the worst way and see that she is now the type of woman who has put relationships to one side to better herself. She is a psychology lecturer with dreams of taking her qualifications all the way. What we quickly find out is that she has strange dreams, dreams of girls being held captive and tortured but also of one mysterious man who makes her desire him like no one else. When she realises that the girls in her dreams are going missing, she feels it's her duty to tell the police what she knows. Thinking they will assume she is crazy, you can imagine her surprise when not only is she believed but an investigation specialist is brought in to interview her further – and he just so happens to be her dream man. Kate is about to have her world turned upside down by Devon Fallinsworth, Regent Vampire Lord of the Midwest. He is centuries old, all alpha and he enjoys all aspects of life including women, sex & blood. In the vampire world he is a leader and used to commanding any situation and the people in it. When girls start to go missing in his area, he suspects his arch enemy is back and up to his old tricks and hopefully this time, they will catch him and end him. When they get a lead from a detective on the case he is ready to begin the hunt but what he isn't ready for is finding Kate Martin, the woman made just for him, his Moira, his soul mate and after centuries – his chance at love & family. Now because of Kate's history, she's really cautious about this man but Dev goes all alpha on her, demanding she have protection etc. and when it becomes obvious that she is in danger –
