Customer Reviews

This cover was bent a little and taped up but I didn't mind that because it is used of course. I couldn't beat the price. I had to get it. The binding is good. I haven't used this book yet, I bought it for my spring semester classes. I wanted to have my books ahead of time because they're way overpriced in my school's bookstore.

It was what I needed and very helpful.

it came in a timely manner and was in great condition. thank you
